Profile

Full Stack Engineer with 7+ years of experience building and maintaining complex, business-critical systems across web and SaaS platforms. Strong background in designing scalable backend architectures with Node.js and Python, implementing layered business logic, and developing component-driven frontends using React and AngularJS. Experienced in AWS-based deployments, high test coverage practices, and writing clean, maintainable, and resilient code. Passionate about system ownership, long-term scalability, and engineering best practices in collaborative global teams.

Core Competencies

JavaScript (ES6+), **Java , SpringBoot 3.0x**, TypeScript, Python, React, AngularJS, React Native, Next.js, Node.js, NestJS, Express.js, REST API Development, System Design, Microservices Architecture, PostgreSQL, MongoDB, AWS (EC2, S3, Lambda), Docker, CI/CD (Jenkins, GitHub Actions), Unit Testing (Jest), Clean Code Practices

Professional Experience

DevPeak Innovations **Remote, India**
Full Stack Developer(Contractual) *Jan 2025 – Present*

- Maintained scalable SaaS systems with complex, layered business logic supporting international clients.
- Implemented CI/CD pipelines and AWS-based deployments, ensuring stable and predictable releases.
- Increased code quality by introducing unit testing practices and improving system observability.

DevPeak Innovations **Hybrid, India**
Full Stack Developer *Jan 2023 – December 2025*

- Designed and maintained scalable SaaS systems with complex, layered business logic supporting international clients.
- Developed backend services using Node.js and Python, focusing on reliability, maintainability, and performance.
- Built reusable, component-driven UI architecture using React and AngularJS, improving code consistency and scalability.
- Implemented CI/CD pipelines and AWS-based deployments, ensuring stable and predictable releases.
- Increased code quality by introducing unit testing practices and improving system observability.

Contractual US & Germany (NDA) **Remote, India**
Full Stack Developer *Jan 2019 – Dec 2022*

- Delivered multiple full-stack systems including SaaS, fintech, and e-commerce platforms with end-to-end ownership.
- Designed backend architectures and APIs emphasizing scalability, fault tolerance, and clean code practices.
- Built production-ready applications using React and AngularJS with a focus on maintainability and long-term extensibility.

Key Projects

CMS tool Cloud App: **Role: Full Stack Developer**
Tech: .NET Core, Python, Node.js, React, AngularJS, React Native, Azure Microservices, REST APIs, CI/CD
Description: Designed and developed a multi-tenant SaaS appointment system used by healthcare, legal, and salon businesses. Implemented backend microservices using Node.js and integrated secure APIs. Built frontend modules using React and AngularJS. Ensured scalability and optimized CI/CD pipelines for fast deployments.
Maintained high unit test coverage (80%+) ensuring system reliability and safe refactoring.

Prolegion (US Client): **Role: Fullstack Developer**
Tech: Java Spring Boot, Node.js, AWS, NextJS, Python, React, AngularJS, React Native, Jenkins, Microservices
Description: Built a platform where vendors, clients and resources connect to management of workforce in the IT corporate world. Developed dynamic UI components using React and AngularJS.
Maintained high unit test coverage (85%+) ensuring system reliability and safe refactoring.

FIPA (BCG Client): **Role: Software Developer**
Tech: Java Spring Boot, Node.js, AWS, React, AngularJS, React Native, Jenkins, Microservices
Description: Contributed to a marketing publishing SaaS project for Boston Consulting Group. Built secure backend services and Node.js APIs. Enhanced UI and workflows with React, AngularJS and React Native.

AutoDevKit: **Role: Full Stack Developer**
Tech: Next.js, Node.js, Vue.js, AngularJS, NestJS, React Native, Google Cloud, Redux Saga, Jenkins
Description: Developed a portfolio code-generator SaaS tool, enabling users to visually create portfolio websites and auto-generate production-ready Next.js code. Built scalable backend services using Node.js and dynamic UI modules using AngularJS.

PAAF (BCG): **Role: Full Stack Developer**
Tech: React, Angular, AngularJS, React Native, Node.js, MongoDB, REST APIs, JWT Auth
Description: Developed a multi-tenant Companies Management System for client onboarding, booking, and transactions. Implemented secure role-based access and backend services using Node.js along with AngularJS-based UI modules.

Eventura: **Role: Full Stack Developer**
Tech: React, AngularJS, React Native, Node.js, Java Spring Boot, NestJS, MongoDB, Redux Saga
Description: Created a nationwide booking platform for weddings and event services with real-time dashboards. Built scalable backend services and APIs using Node.js and developed interactive UI components using AngularJS. Integrated payment gateway.

Education

Panjab University — **Hoshiarpur, India**
Master of Computer Applications — *2020 – 2023*

H.P. University — **Dharamshala, India**
Bachelor of Computer Applications — *2017 – 2020*

Certifications

Java Microservices with Spring Boot – Google Cloud (2023)

Frontend Web Development – Johns Hopkins University (2022)

Full Stack Web Development Training – DevTown (2023)
